Dear Parents/Guardians,

P3 Term 4 PE, Art & Music updates

PE

We have come to the end of Term 4 and here are some updates on P3 PHE. The students have been taught the following skills. They have also learnt some health-related topics based on the An Active and Healthy Me book.

Games and Sports

1. Striking/volleying with hand using the underhand movement pattern with 1 hand
2. Striking/volleying with hand using the underhand movement pattern with 2 hands
3. Striking/volleying with hand over net
4. Striking/volleying with hand into target (hula hoop)
5. Striking using a racket using the underhand movement pattern, a racket and a shuttle
6. Striking using a racket using the underhand movement pattern against a wall
7. Striking using a racket using the underhand movement pattern over a low net

An Active and Healthy Me

1. Keeping safe while cycling
2. Mosquito-borne diseases

In term 4, the P3 pupils recapped on the underhand movement pattern, which was taught in P1 and P2. The primary implement used in P1 and P2 is normally beanbags and smaller balls. At P3, the use of the underhand movement pattern is paired with other implements like a foam volleyball and a badminton racket. Pupils get to experience how one movement pattern can be applied in various sports. For example, in badminton, this will be a forehand service.

For PHE, pupils covered 2 topics: Keeping safe while cycling and mosquito-borne diseases. Pupils learnt how to be safe while cycling, and as a pedestrian. In the next topic, pupils covered some of the content on SLS. They learnt how to identify the symptoms of mosquito-borne diseases, how to prevent the spread of diseases as well as ways to protect themselves from mosquitoes.

During the December break, we greatly encourage the pupils to stay active as much as possible while adhering to the Enhanced Safe Management Measures.

Best regards,
Ms Victoria Chua
Primary 3 PE Level Representative

Art

In term 4, pupils continued with the Claymation module. Some of the lessons were conducted via zoom due to the restrictions of the pandemic. When the restriction eased, we were able to conduct face to face lessons with the pupils. They learnt how to use Stop-motion app to take photographs of their videos. After that, they learnt how to use Filmorago app to edit their videos. The pupils were very eager to learn as they were interested in how to make a stop motion video. They were encouraged to download the apps to practise at home and also make their own stop motion videos. They also learnt how to discuss and negotiate with their partner during the making of the project. . They enjoyed the lessons and were amazed by how they were able to make a simple video using the apps.

Best Regards,
Miss Lim Siew Hoon
Primary 3 Art Level Representative

Music

In term 4, due to HBL, there was not enough time to complete the filming of Anansi and the Moss covered rock elemental musical theatre. However, students managed to finish composing their music motif for the various animals using instruments of their choice whose tonal quality complemented the movements and characteristics of the animal they are representing. Students enjoyed the module and also had a good time listening and critiquing the music representing other animals.

As we are nearing the end of 2020 and moving on to 2021, I would like to invite all pupils to prepare themselves during the year-end holiday for our upcoming annual Talentime 2022. Pupils who are interested may prepare a video recording of themselves either singing or dancing. This video can be used to submit for their online Talentime audition in 2022. The online submission date will be announced in 2022. Do look out for that in our PG notification in 2022. We look forward to seeing your child next year.

Best regards,
Ms Serene Chan
Primary 3 Music Level Representative
