HarbourFront Centre 1
Maritime Square Level 4
(via Lobby C)**

Design My Room

A fun hands-on holiday camp designing your personal bedroom space with understanding of floor layout planning, furniture types, colours and textures for your bedroom. Children will build a 3D model prototype of their Rooms that they have personally designed.

Highlights

- **Project-Based Learning:** Children work on architectural model. This approach allows them to apply their knowledge and skills in a practical and meaningful way.
- **Design Thinking:** Children are encouraged to think critically and solve design problems through the design thinking process. They learn to empathise with users, define problems, generate ideas, create prototypes, and test and iterate their designs.
- **Visual and Spatial Thinking:** Children develop their visual and spatial thinking abilities through activities like sketching, drawing, and creating 3D models. They learn to visualise and communicate their ideas effectively.

Parent-Child Workshop: Gingerbread House Decoration

Step into a world of sugary dreams and festive creativity in our Gingerbread House Decorating Workshop this festive season! Designed especially for parents and children, this hands-on experience is more than just decorating; it's about building memories, one candy at a time.

Our instructors will combine interactive demonstrations with hands-on guidance, ensuring each parent-child duo achieves their desired Gingerbread house. Each family will bring home a Gingerbread house or use it as a sweet gift to your friends.

You may click here to sign up your child for the [Gingerbread House Decoration](#). Please do email to connect@rgpsalumni.org.sg for any enquiries.
